

PBT SEWING THREAD

PBT SEWING THREAD

PBT (polybutylene terephthalate) sewing thread is a high-performance sewing thread specially designed to meet the needs of elastic fabrics. Compared with traditional polyester thread, its most prominent characteristics are excellent elasticity and outstanding dyeing performance, making it the “golden partner” of elastic clothing.

FEATURES

- 1. Spuer high elasticity
- 2. Extensibility

APPLICATION

- 1. Sports and outdoor clothing
- 2. Swimwear and Underwear
- 3. Elastic clothing
